Summary

Frontend Developer with 2.5+ years of experience building scalable SaaS apps, analytics dashboards, and marketing sites. Skilled in React, Next.js, Tailwind CSS, and modern APIs. Strong at translating designs into responsive UIs, optimizing performance, and delivering full features end-to-end.

Skills

Languages & Frameworks: HTML5, CSS3, JavaScript (ES6+), **React.js**, **Next.js**, TypeScript.

Styling & UI: Tailwind CSS, SCSS, Framer Motion, shadcn/ui.

API & Backend Integration: REST APIs, Supabase, Firebase, Clerk Auth, GraphQL, Graphcms, Strapi CMS.

Tools & Platforms: Git/GitHub, Vercel, VS Code, NPM/Yarn

Experience

Frontend Developer

LLMate AI

02/2024 - Present

- Built the full frontend of LLMate.ai's AI-powered analytics platform and marketing site using Next.js, React, and Tailwind CSS. Enabled natural language-driven data exploration.
- Delivered **dynamic dashboards and conversational UI** for LLMate Studio, enabling users to ask questions, explore trends, and visualize real-time insights without technical barriers.
- Built **multiple RAG (Retrieval-Augmented Generation) chat applications** to allow users to ask follow-up questions, explore documents, and extract contextual insights from their data sources.
- Implemented advanced features like pivot tables, custom chart widgets, AI-generated reports, file uploads (CSV/Excel), and automated publishing tools to support end-to-end data workflows.
- Collaborated closely with product designers and backend engineers to **integrate real-time data pipelines and LLM responses**, ensuring a fluid, chat-like analytics experience.
- Engineered **SEO-optimized, blazing-fast landing pages**, increasing organic traffic by **3x** within the first 2 months.
- Prioritized performance, achieving **and 100% Lighthouse scores across key pages for improved user experience.**

Frontend Developer

VedicRishi

07/2022 - 01/2023

- Developed a collaborative environment for all team members, creating a strong sense of community and empowerment
 - Designed a new web application to increase collaboration among design, engineering and sales teams, resulting in a 10% increase in revenue in one quarter
 - Built a custom web application for a major client, successfully delivering an integrated CRM system in just 2 weeks
 - Maintained a clean, professional and creative web presence for the company to convey the professional image of the organization
 - Used Adobe InDesign to design, edit and layout the company's print & digital collateral
 - Optimized web application performance by implementing lazy loading, code splitting, and caching strategies, resulting in a 40% faster page load time and improved user retention.
-

Personal Project

ChartDrop.io | Jan 2025 – Present Launched a full-stack SaaS platform where users can create and customize **interactive chart widgets** from CSV/Excel files—no code required.

- Users can embed chart widgets directly into their websites, blogs, or tools with full control over chart type, labels, filters, aggregations, and styles.
 - Built a custom pivot logic engine to transform data and generate dynamic visualizations using Recharts. Supports advanced aggregations like Sum, Count, Avg, Min, Max, % of Total, Top N, and more.
 - Integrated LemonSqueezy for monetization with a \$5/month Pro Plan that includes widget exports, and advanced embed options.
 - Architected the platform with Next.js 15, Tailwind CSS, and Supabase for file metadata management, and used xlsx + papaparse for file ingestion and client-side validation.
 - Secured with Clerk authentication (OAuth + email/password) and implemented RBAC to manage access tiers.
 - Tech Stack: Next.js 15, React, Tailwind CSS, Supabase, Clerk, shadcn/ui, Framer Motion, LemonSqueezy, Recharts.
-

Education

Diploma in Taxation Law (DTL)

Savitribai Phule Pune University, Pune

Bachelor of Commerce (B.com)

Dr. Babasaheb Ambedkar Marathwada University, Aurangabad
